Robt. McCaughrin, the son of R. L. McCaughrin, aged 12 years and 5 months, died on Friday morning last, of malarial fever, and on Sunday the family were again called upon to mourn the death of the youngest member, Laura, an infant, eight months old. This afflictive dispensation of Providence is a severe trial, and can only be borne by a supreme trust in the wisdom of God, and an assurance that the Savior's love for children is great and infinite; his injunction to suffer them to come to Him must be taken without murmur. Of such is who have been called upon to taste of this bitter cup can appreciate the depth of this family's woe, but we bid them not to doubt the loving wisdom of God, who doeth all things well. Our sincerest sympathy is extended to them. Miss Anna Eliza Whitman died of

The Day of Atonement.

Monday was one of the most solemn Jewish fast-days on their calendar, and known as the day of Atonement. Ten days preceeding this are known as penitential days. The day of Atonement is referred to as follows:

"And it shall be unto you a statute forever; in the seventh month, you shall afflict your souls and do no manner of work, the denizen as well as the stranger that sojourneth among you, for that day you shall be atoned for to purify you from all your sins before the Lord," 'This day shall be among The Company will play at the Richthe first of your Sabbaths and you shall afflict your souls-this is an everlasting statute."

On last Wednesday night, the 24th ult., Mr. Wm. H. Blease called on Messrs. James Singleton and A. H. Blease to go with him to Helena to ar-rest one Wash Carwile, colored, for breach of the peace. Mr. Blease had a warrant for his arrest. While watching Carwile's house Mr. Singleton heard a noise, and thinking that perhaps it was the accused, under the house, he stooped down to look for him, when the pistol, which he held the Kingdom of Heaven. Only those cocked, was accidentally discharged, the ball entering his (Singleton's) leg about two inches above the knee, and ranging down in the calf of the leg, making only a flesh wound, but a very painful one. Mr. Blease called on our good friend Zobel for his wagon and orse to carry the wounded man home. He responded promptly, as he always does when called upon for favors.

Drs. McIntosh and Gilder probed for the ball, but did not succeed in extracting it. They say that there is no danger of its making a stiff leg. Mr. Singleton is improving fast, we are pleased to say. Mr. Blease begs us to hank Mr. Zobel for himself and his wounded friend for his kindness. The pistol is a 44-calibre and belongs

The Newberry Cotton Factory will

Soon be in Motion. Since the day the big wheel of New-berry's Cotton Factory was made to show that it could go round, and was not simply erected as an ornament, we-the Senior-have not been permitted by reason of bad health to visit the scene of the operation which afforded such gratification then. We have regretted this more than once, for we like to keep up with Newberry's advancements, and all of her works of internal improvement, and too because the Factory is no small thing: on the contrary it is a very large, and important thing. Aside from the pro-fits which the stockholders reasonably ope to realize from its working, our thoughts turn to the hundreds of industrious men and women and children who can find no occupation, no work for their willing hands to do. Already are many of this class given a place in the picture, and have been found something to do, for which they receive honest and fair wages; and by the middle or close of November hundreds will be earning their bread by sweat of their brow, and with wages in their pockets, will feel the importance and the independence which money imparts. This money too, will not only give them the means of getting what they want, but will find its way into the drawers of the merehant. Every class of society will be benefitted. We too expect to realize of this floating expenditure. Many of the operatives will feel the necessity of having the news as given to them by the papers of the town; we expect therefore to realize in this. Our visit on this occasion was a pleasant one, and much information was superintendent Holbrook, who politely showed us over the building. Our readers being already aping. prised of the salient points of interest it is hardly necessary for us to repeat what we have heard. It but remains now to fix and adjust the machines, and get them in redness for the day on which the looms, carding machines, spinners and shooters, slashes, and pickers will be set to work. The water and fire apparatus are of the completest kind. We were pleased to be shown how complete are the appliances in this respect. We trust that no delay may be experienced in starting the Newberry Cotton Factory, and

Working Effectively in the Ranks. The correspondent of the News and Courier, in his glowing account of the first gun of the campaign at Pickens on the 23rd ult., says that Hon. George Johnstone delivered a logical and effective address. His chief points were that the Republican party was one of intense sectional ideas, a party of selfish interests and one disposed to subject one section of the country to the domination of the other. He investigated the causes which prevented a coalition of political sentiment and aptly and eloquently compared the condition of the Republican party of the Union now to that of the Republican party of South Carolina while under Radical rule. He showed how it had degenerated into a party of repudiation. He dwelt on the question of the donation of the public domain to corporations and monopolists who

again sell them to the people from whom it was stolen. He then went into the personal history of Blaine and held him up as a man, self-convicted and absolutely unworthy of the public confidence he courted. This was evi-dent, he said, to a large proportion of the Republican party itself. Mr. Johnstone's remarks were heard with the earnest attention they deserved and produced an evident effect.

The correspondent in his account of the meeting at Walhalla on the 25th, says: The Hon. George Johnstone, although not on the list of the speakers for the day, was loudly called for by the meeting, and in response de-livered a short but stirring address, in which he incorporated a scathing arraignment of Blaine and pointed out the endeavor made by the Republicans

in their National platform to revive 26th Mr. Johnstone announced the nomination by the Republicans of a full State ticket. He said he could hardly realize it as a fact that it was intended seriously to surrender the State at this day into the hands of such a crew. He said that the proposition they had made could only have but one effect, and that was to arouse the people all over the State to a knowledge of their danger, and to incite them to look that danger squarely in the face. He then very appropriately recalled certain chapters in the history of the State previous to 1876, and said that at this late day the scenes of those dark days could better be imagined than described. With the opportunity and text offered Mr. Johnstone made a ringing speech in favor of the maintenance of the present

government and stamping out of existence the infamous ticket nominated by the Republicans. D. H. Maffett Heard From Again. A Washington letter to the Peru, Indiana, Republican, and an editorial in that paper upon the letter, furnish some rich, rare and racy news of a character well known in Newberry. The letter furnishes a text for the said editorial. After remarking that the Republican party, among other things, had placed the sword of power in the negro's hand and told him to use it, it adds that the party made a mistake in too hasty a reconstruction of the late rebel States. Troops should have been maintained in the South until the people were wi ling to obey the law; but since they have been withdrawn and the States turned over to the civil authorities there is no alternative left to the colored voter but to become as familiar with the use of firearms as the ruffians who domineer over him and give them as good as they send." Such is the inc. ndiary language of the Republican, whose words proclaim its editor to be either a negro within whose breast rankles an undying hatred for the Southern white man, or a cowardly Yankee outlaw who has never smelt powder. The letter says: "Walking out to-day in quest of political news I met D. H. Maffett, the ag-

gressive and active young Republican from South Carolina." Maffett pays his respects to the eight-box system and politics in the South generally, in the stereotyped expressions of his party. But they are old and tame and have no weight. The most interesting portion of the letter is that which displays the congressional bee in Maffett's bonnet. Says the reporter: "I learn from some of your friends here that you are prominently spoken of as the probable nominee for Congress from the 3rd South Carolina District. Will you make the fight if nominated?" Maffett answers that if he can receive the assurances that the Congressional comnittee will furnish the candidate of his district any aid, and the next congress (which he says will be Republican) will stand by the nominee who-ever he may be, he "will make the fight from the centre to the circumference of the district." Maffett adds that he"should consider it an honor to receive a nomination in such a district and certainly it would be a glowell known in the community. We to receive a nomination in such a disrious pleasure to represent that de-voted and loyal Republican constitu-for we certainly owe some. Thanks, rious pleasure to represent that deency, and such will be the result if the Republicans will do their duty." The Republican editor reduces the interview

Now we'll wager a inger-cake that James G. Blaine will not agree with Horace on the 4th of March next. James will then give Grover Cleveland credit for being considerably more than a drop. Cleveland will at least be an inlet-let in

o the White House. The following "riddle" is old, but it will be new to many. It was furnished us by a friend. Every word of it is true. Guess it:

Beneath the skies a creature once did So sacred writers unto us do tell.

He lived, he breathed in this vain world, 'tis true, Though he never sinned or any evi knew: He never shall in Heaven's high kingdom dwell,

Or ever be doomed to feel the pangs of hell-Yet in him an immortal soul there was, That must be damned or live among
